

LITERATURE LIST OF BOLU MASSIF

LITERATURE LIST OF BOLU MASSIF

- Abdüsselamoğlu, M.S., 1977, The Paleozoic and Mesozoic in the Gebze Region. *Explanatory text and excursion guide book. Fourth Colloquium on Geology of the Aegean Region, Excursion 4 : Western Anatolia and Thrace. İT.Ü. Maden Fakültesi, İstanbul, 16s.*
- Akbayrama, K., Aral, I. O and Satır, M., 2013, Early Cretaceous closure of the Intra-Pontide Ocean in western Pontides (northwestern Turkey). *Journal of Geodynamics*, 65, 38– 55.
- Aktimur, T., Algan, Ü., Ateş, S., Oral, A., Ünsal, Y., Karatosun, H., Öztürk, V ve Sönmez, M., 1983, Bolu ve Yakın Çevresinin Yerbilim Sorunları ve Muhtemel Çözümleri. *Maden Tetkik ve Arama Enstitüsü Müdürlüğü, Rapor No. 1385, 1–93.*
- Arpat, E., Tütüncü, K., Uysal, S and Göğer, E., 1978, Cambrian- Devonian sequence in the Safranbolu area. *Türkiye Jeoloji Kurumu 32. Bilimsel ve Teknik Kurultayı, Bildiri Özetleri Kitabı, 67–68.*
- Aydın, M., Serdar, H.S., Şahintürk, Ö., Yazman, M., Çokuğraş, R., Çelik, O., Özçelik, Y., 1987, Çamdağ (Sakarya)-Sünnicedağ (Bolu) Yöresinin Jeolojisi. *Türkiye Jeoloji Bülteni, 30, 1-14.*
- Biberoğlu, S., 1984, Geology of the southeast of Yığılca (Bolu). *Yüksek Lisans Tezi, İ.T.Ü. Fen Bilimleri Enstitüsü, 104 pp.*
- Bozkurt, E., Winchester, J. A., Yiğitbaş, E., Ottley, C. J., 2008, Proterozoic ophiolites and mafic–ultramafic complexes marginal to the İstanbul Block: An exotic terrane of Avalonian affinity in NW Turkey. *Tectonophysics*, 461, 240–251.
- Bozkurt, E., Winchester, J. A and Satır, M., 2012, The Çele mafic complex: Evidence for Triassic collision between the Sakarya and Istanbul Zones, NW Turkey. *Tectonophysics*, 595-596, 198–214.
- Cerit, O., 1990, Geological and tectonic examination of the Bolu Massif. *Doktora tezi, Hacettepe Üniversitesi Fen Bilimleri Enstitüsü, 217s.*
- Cerit, O., 1995, Bolu Masifi'nde Alt Paleozoyik yaşlı mağmatizma (Bolu kuzeyi). *K.T.Ü Jeoloji Mühendisliği Bölümü 30. Yıl Sempozyumu Bildiri Özleri 16–20.*

- Cerit, O ve Batman, B., 1999, Bolu Masifi (Bolu Kuzeyi) ve Yakın Civarının Stratigrafisi. *Yerbilimleri*, 21, 39-62.
- Chen, F., Siebel, W., Satır, M., Terzioğlu, M.N and Saka, K., 2002, Geochronology of the Karadere basement, NW Turkey and implications for the geological evolution of the İstanbul Zone. *International Journal of Earth Sciences*, 91, 469–481.
- Dean, W.T., Monod, O., Rickards, R.B., Demir, O and Bultynick, P., 2000, Lower Palaeozoic stratigraphy and palaeontology, Karadere-Zirze area, Pontus Mountains, northern Turkey. *Geological Magazine*, 137, 555–582.
- Erendil, M., Aksay, A., Kuşçu, İ., Oral, A., Tunay, G ve Temren, A., 1991, Bolu Masifi ve Çevresinin Jeolojisi. *Maden Tetkik ve Arama Enstitüsü Müdürlüğü, Rapor No. 9425*, 55s.
- Elmas, A ve Yiğitbaş, E., 1998, Sunnice Dağı (Bolu)’nin Jeolojisi. Batı Pontid Temel Kayaları Sorununun Çözümüne Petrotektonik Bir Yaklaşım. *İstanbul Üniversitesi. Proje no: 705/260495*.
- Elmas, A and Yiğitbaş, E., 2001, Ophiolite emlacement by strike-slip tectonics between the Pontide Zone and the Sakarya Continent in northwestern Anatolia, Turkey. *International Journal of Earth Sciences*, 90, 257–269.
- Elmas, A and Yiğitbaş, E., 2005, Comment on Tectonic evolution of the Intra-Pontide suture zone in the Armutlu Peninsula, NW Turkey by Robertson and Ustaomer. *Tectonophysics* 405, 213 -221.
- Göncüoğlu, M.C ve Erendil, M., 1990. Armutlu Yarımadasının Geç Kretase öncesi tektonik birimleri. In: *Proceedings of the 8th Petroleum Congress of Turkey*, 161 -168.
- Göncüoğlu, M.C., Erendil, M., Tekeli, O., Aksay, A., Kuşçu, I and Urgan, B.M., 1987, Geology of the Armutlu Peninsula. In: *Excursion Guidebook for the IGCP Project No. 5*, 53 pp.
- Göncüoğlu, M.C., Erendil, M., Tekeli, O., Aksay, A., Kuşçu, I., Urgan, B.M., 1992, Introduction to the geology of the Armutlu Peninsula. In: *A Geotraverse across Tethyan Suture Zones in NW Anatolia*, *Excursion Guidebook*, 26 -35.
- Görmüş, S., 1980, Geological examination of Yiğilca (Bolu NW) region. *Doktora tezi, Hacettepe Üniversitesi Fen Bilimleri Enstitüsü*, 210 pp.

- Kaya, O., 1982, Ereğli, Yığılca, Bolu Kuzey, Mengen alanlarının stratigrafi ve yapı özellikleri. *TPAO Arama Gurubu Arşivi, Rapor No. 1639, 170s.*
- Ketin, İ., 1966, Anadolu'nun tektonik birlikleri. *Maden Tetkik ve Arama Dergisi*, 66, 20.
- Mugan-Ustaömer, P. A., 1992, Tectonic setting and emplacement of the Bolu Granitoid Complex, W Pontides, N Turkey. *Abstract, Work In Progress On the Geology of Türkiye, University of Keele, 72pp.*
- Okay, A.I., Bozkurt, E., Satır, M., Yiğitbaş, E., Crowley, Q.G and Shang, C.K., 2008. Defining the southern margin of Avalonia in the Pontides: geochronological data from the Late Proterozoic and Ordovician granitoids from NW Turkey. *Tectonophysics*, 461, 252 -264.
- Okay, A.I., Satır, M and Siebel, W., 2006, Pre-Alpide orogenic events in the Eastern Mediterranean region. *European Lithosphere Dynamics. Memoir of the Geological Society, London*, 32, 389 -405.
- Okay, N., Zack, T., Okay, A.I and Barth, M., 2011, Sinistral transport along the Trans-European Suture Zone: detrital zircon–rutile geochronology and sandstone petrography from the Carboniferous flysch of the Pontides. *Geological Magazine*, 148, 3, 380–403.
- Önalın, M., 1981, Deposition environments of the İstanbul Ordovician and Silurian sequence. *İ.Ü. Yerbilimleri Dergisi*, 2, 161–177.
- Özaltın, M., 1984, Geology of the southeast of Yığılca (Bolu). *Yüksek Lisans Tezi, İ.T.Ü. Fen Bilimleri Enstitüsü*, 75p.
- Seyitoğlu, G., 1984, Geology of the south of the Sünnice hill (Bolu). *Yüksek Lisans Tezi, İ.T.Ü. Fen Bilimleri Enstitüsü*, 30p.
- Ustaömer, P.A.M., 1996, Petrogenesis and Metalogenesis of Bolu-Yedigöller Granitoids. *Doktora tezi, İstanbul Üniversitesi Fen Fakültesi*, 196p.
- Ustaömer, P.A., 1999, Pre-Early Ordovician Cadomian arc-type granitoids, the Bolu Massif, West Pontides, northern Turkey: geochemical evidence. *International Journal of Earth Sciences*, 88, 2–12.
- Ustaömer, P.A and Kipman, E., 1998, An example for a Pre-Ordovician Arc magmatism from northern Turkey: geochemical investigation of Çavuştepe Formation (Bolu, W Pontides). *Bulletin of Mineral Research and Exploration*, 120, 37-53.

- Ustaömer, P.A and Rogers, G., 1999, The Bolu Massif: remnant of a pre-Early Ordovician active margin in the west Pontides, northern Turkey. *Geological Magazine*, 136, 579–592.
- Ustaömer, T., Robertson, A.H.F., 2005, Reply to discussion contribution by A. Elmas and E. Yiğitbaş, on “Tectonic evolution of the Intra-Pontide suture zone in the Armutlu Peninsula” by A.H.F. Robertson and T. Ustaomer [Tectonophysics 381 (2004), 175–209]. *Tectonophysics*, 405, 223–231.
- Ustaömer, P.A., Mundil, R and Renne, P.R., 2005, U/Pb and Pb/Pb zircon ages for arc-related intrusions of the Bolu Massif (W Pontides, NW Turkey): evidence for Late Precambrian (Cadomian) age. *Terra Nova*, 17, 215–223.
- Ustaömer, P.A., Ustaömer, T., Gerdes, A and Zulauf, Z., 2011, Detrital zircon ages from a Lower Ordovician quartzite of the Istanbul exotic terrane (NW Turkey): evidence for Amazonian Affinity. *International Journal of Earth Sciences*, 100, 23–41.
- Robertson, A.H.F and Ustaömer, T., 2004, Tectonic evolution of the Intra Pontide suture zone in the Armutlu Peninsula, NW Turkey. *Tectonophysics*, 381, 175–209.
